[*G.O. No. 33, Public (Political)*]

No 3.—

It has been represented that the total discontinuance of the use of the abbreviation "Kt." in official communications, directed in G.O. No. 2084, Public (Political), dated 1st November 1937, would make it impossible in the case of High Court Judges to distinguish between those who were Knights-Bachelor and those who were not, since all are styled "The Honourable Mr. Justice X. Y. Z." His Excellency the Viceroy has accepted the validity of this objection and has therefore decided that an exception should be made in the case of High Court Judges, and the letters "Kt." should be used after the names of those who are Knights-Bachelor. In all other cases this addition is superfluous, since the degree is sufficiently indicated in the case of Knights-Bachelor by the title "Sir," and in the case of

Knights of Orders by the further addition of the initials of the order after the names.

With this modification the direction communicated with S O No 2034, Public (Political), dated 1st November 1937, should stand.

No. I.—

The following notification is issued in supersession of Notification No 4 dated 13th February 1933, published in the *Fort St. George Gazette*, Part II, dated 23rd February 1937 :—

In exercise of the powers conferred on him under section 4 (g) of the Madras Abkari Act, 1886, the Commissioner of Excise and Separate Revenue hereby prescribes under sections 10, 24 and 29 (2) (f) of the Act, the following rules for the levy of fees on the volume of sales, etc., and for the issue of licences for the compounding, blending, bottling and sale of potable foreign liquors, Indian-made foreign spirits, Indian-made rectified spirits, coconut toddy arrack and beer brewed in India from and after the 1st April 1938 within the limits of the Madras Presidency :—

1. The term 'foreign liquor' in these rules includes all wines, spirits and beer imported into the Madras Presidency by sea or land; imported plain rectified spirits on which the tariff rate of duty has been paid and beer brewed in India duly excised at the tariff rate but excludes Indian-made foreign spirits, coconut toddy arrack, beer brewed in India and Indian-made plain rectified spirits on which duty at the tariff rate has not been paid, beer imported in a condensed form and afterwards converted into potable beer, denatured spirits and ordinary arrack.

'Indian-made foreign spirits' is spirit manufactured and compounded in British India and made in colour and flavour to resemble gin, brandy, whisky or rum imported from foreign countries and includes 'milk punch' and other liqueurs into the composition of which only such spirit enters. It is excised at Rs. 21-14-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits. The maximum limit of private possession is two Imperial gallons.

'Indian beer' is beer brewed in India, (a) which contains at least two bushels of malt and two pounds of hops per bagshead and in the manufacture of which jaggery or crude cane-sugar is employed, (b) which is brewed at a higher original gravity of 1,059 degrees on a standard saccharometer and (c) maximum price of which at the brewery is Rs 40 per bagshead plus the excise duty imposed at the time of issue.

NOTE.—(1) The minimum strengths at which imported and Indian-made foreign spirits can be sold are 35° U.P. for gin, 25° U.P. for Calcutta arrack and coconut toddy arrack and such other spirits as may be prescribed by the Commissioner of Excise and Separate Revenue, from time to time and 25° U.P. for all other kinds of spirits including Indian arrack, except denatured spirits.

(2) Holders of foreign liquor licences should not dispose of any spirits imported by them and cleared from the Customs House in payment of provincial duty before acquainting themselves with the true strength of the spirit and satisfying themselves that it is not below the minimum saleable strength. If on test at the Customs Laboratory it is found that any such spirit is below the minimum saleable strength and has been sold, the excise rules will be rigidly enforced against such licensees.

(3) 'Rectified spirits' includes 'absolute alcohol.'

2. (1) Gallonage fees shall be levied at the following rates on the volume of sales of liquor under such licences and in such manner as may be prescribed by the Commissioner of Excise and Separate Revenue from time to time :—

Madras, 18th January 1938.

TENDER FOR EXTENSION OF IRRIGATION UNDER UYYACONDAN CHANNEL IN TANJORE AND TRICHINOPOLY.

TENDERS will be received by the Superintending Engineer, Trichinopoly Circle, at his office at Trichinopoly up to 4 p.m. on 25th February 1938 for the work of extension of irrigation under Uyyacondan channel in Tanjore and Trichinopoly.

The tender should be in the prescribed form obtainable from the Superintending Engineer's office. The tenders will be opened by the Superintending Engineer, Trichinopoly Circle at his office, Trichinopoly, on 26th February 1938 at 3 p.m.

2. Tenders must be submitted in sealed covers, and should be addressed to the Superintending Engineer, Trichinopoly Circle, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender satisfactory evidence of his authorisation. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees one thousand only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Trichinopoly Division and enclose with his tender the challan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender whichever is earlier. This refund will be authorised by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be returned in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Superintending Engineer's office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a security deposit of rupees one thousand only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor, he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Superintending Engineer's office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as declared in this paragraph, shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract

shall not be deemed to be complete until the agreement has first been signed by the contractor and them by the proper officer authorised to enter into contracts on behalf of Government.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and sign the Divisional office copy of the Madras Detailed Standard Specifications and its additional volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 4 p.m. on office days in the office of the Superintending Engineer, Trichinopoly Circle. A copy of the set of contract documents can also be had on payment of Rs. 15 for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary specification." Materials conforming to the British Standard Specifications shall be used as the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications or in this tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined on the Descriptive Specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Superintending Engineer.

The Government will not, however, after acceptance of a contract rate payany extra charge for lead or for any other reason in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) earthwork;
(3) construction plant;
(4) water and lighting;
(5) cleaning up during progress and for delivery;
(6) measurements;
(7) delays; and
(8) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule and that this schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, Trichinopoly Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump-sum agreeing with the total amount of Schedule "A." The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the printed form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificates of the value of work done will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount).
Three months	10
Six months	40
Nine months	65
Twelve months	75
Fifteen months	100

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order and according to instructions.

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms, whether they employ such technical staff and if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

Trichinopoly, 17th January 1938.

TENDER FOR CONSTRUCTING VENEREAL WARD FOR MALES AND FEMALES IN THE NEW HEADQUARTERS HOSPITAL, MADURA.

TENDERS will be received by the Superintending Engineer, Trichinopoly Circle, at his office at Trichinopoly up to 4 p.m. on 17th February 1938 for the work of constructing Venereal ward for males and females in the New Headquarters Hospital, Madura.

The tender should be in the prescribed form obtainable from the Superintending Engineer's office. The tenders will be opened by the Superintending Engineer, Trichinopoly Circle, at 5 p.m. on 18th February 1938.

2. Tenders must be submitted in sealed covers and should be addressed to the Superintending Engineer, Trichinopoly Circle, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorisation. Such tendering corporation may be required before a contract is executed to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees one thousand, six hundred and fifty only into the branch of the Imperial Bank of India at or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Ramnad Division and enclose with his tender the challan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderers on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorised by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Superintending Engineer's office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a security deposit of rupees one thousand six hundred and fifty only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 65 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Superintending Engineer's office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in the paragraph, shall entail forfeiture of the earnest money.

The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorized to enter into contracts on behalf of Government.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and also the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender with rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specified area plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Superintending Engineer, Trichinopoly Circle.

A copy of the set of contract documents can also be had on payment of rupees ten for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specification shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source named shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or

sufficient quantity from the source defined in the Descriptive Specification or Sheet, he shall so state already in his tender and state where from he intends to obtain materials, subject to the approval of the Superintending Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of conservancy, tolls etc.

5. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work ;
(2) carriage ;
(3) construction plant ;
(4) water and lighting ;
(5) closing up during progress and for delivery ;
(6) accidents ;
(7) delays ; and
(8) particulars of payments.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

6. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Ramnad Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rate should be written both in words and figures and the use is in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract such lump sum agreeing with the total amounts of Schedule 'A.' This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, when unavoidable, should be made by crossing out, initialing, dating and re-writing.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised ; and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The prices at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the materials at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No overtime or incidental charges will be borne by Government in connection with the supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be estimated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tender should be in the prescribed form obtainable from the Executive Engineer's office and will be opened by the Executive Engineer, Guntur Division, at his office on 1st February 1938.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Guntur Division, the name of the tenderer and the name of the work to be specified thereon.

3. If a tender is made by an individual it should be signed with his full name and that tender should be given. If a tender is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the names in full each of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender satisfactory evidence of his authorisation. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

4. Each tenderer must pay, as earnest money, a sum of rupees fifty only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Guntur Division and enclose with his tender the chalan endorsed accordingly. The earnest money will be refunded to the unsuccessful tenderers on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

5. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees twenty only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental new lump-sum contract form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 62 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

6. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume I. A test of such study before submitting his tender will save him which shall be for finished work *in situ*. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 3 p.m. on office days in the office of the Executive Engineer, Guntur Division.

7. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

8. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications or in this tender notice

as as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, cesses etc.

5. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) earnings;
(3) construction plant;
(4) water and lighting,
(5) cleaning up during progress and for delivery;
(6) accidents;
(7) delays;
(8) particulars of payment; and
(9) responsibilities and liabilities of contractor.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

6 A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, Guntur Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in case of three per cent. The rates should be written both in words and figures and the cost in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12 The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor for the work.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16 No payment will be separately made for baling water during the excavation and forming protective bunds, clearing jungle at site and diversion of roads required during execution. The rates quoted by the tenderer must include the above-mentioned charges.

17. The tenderer may however mention an earlier date which first will be taken into consideration and the earlier date will thereafter be considered as the date fixed for completion of the work.

18 The qualification of the supervising staff employed by the contractor is the execution of the work will be given due consideration in awarding the contract. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Guntur Division.

7. Every tenderer is requested, before quoting his rates, to inspect the site of the proposed work. The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, Guntur Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in case of three pies. The rates should be written both in words and figures and the unit in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing dating and rewriting.

10. Tenders offering a percentage deduction from, or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. This earnest money will, at the close of sale, be returned to the unsuccessful bidders. The officer conducting the sale may at his discretion refuse to accept the bid of any person on the ground that he is insolvent or for any other valid reason. He may also refuse any bid which he may consider to be purely speculative after recording his reasons for doing so. In case of any dispute during time of sale, the decision of the officer conducting the sale shall be final. If for any reason the highest bid is rejected, the next highest shall be taken or the right resold at his discretion.

2. The right will be knocked down to the highest bidder subject to the conditions in paragraph 1. But the sale shall be subject to confirmation by the Executive Engineer, West Coast Division, who may accept or reject any bid at his discretion without assigning any reasons.

3. On the result of the sale being declared and accepted by the officer conducting the sale, the successful bidder must deposit immediately in cash a further sum which inclusive of the sum of Rs. 50 deposited prior to the sale will make up one-fourth of the total amount of his bid. The stamp duty shall be borne by the bidder himself. He shall further pay one-third of the bid amount on or before 1st August 1933 and the balance one-third on or before 1st December 1933. If the above amounts are not paid on the due date or the agreement executed within the said period, the deposits and payments already made may at the discretion of the Executive Engineer be forfeited and the sale cancelled and the right of collecting tolls resold or otherwise disposed of as the risk of the said bidder who will be liable to make good any loss to Government resulting from the resale or its disposal in any other manner.

5. If at any time subsequent to the sale the purchaser shall be found or considered to be of doubtful solvency, he may be required to deposit either a further security of Rs. 50 in addition to the sum prescribed in paragraph 3 supra or to get a surety or sureties to execute a security bond for the due payment of all amounts that may become due by him under the terms of the contract, the bond shall be stamped and registered at the expense of the purchaser.

The tender should be in the prescribed form obtainable from the Executive Engineer's office. The tenders will be opened by the Executive Engineer, Cauvery Division, at Tanjore on 16th February 1935.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Cauvery Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual all his designated name in full names and addresses shall be given. If it is made by a firm, all of the names and with the designation of each partner, the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender satisfactory evidence of his authorization. Such authorizing corporation may be required, before the contract is executed, to furnish evidence of the corporate seal.

3 Each tenderer must put, as earnest money, a sum of Rs 2-0 (rupees two hundred and ninety only) into the branch of the Imperial Bank of India or into the Government treasury or subtreasury within the jurisdiction of the Executive Engineer concerned to the credit of personal deposits on behalf of the Executive Engineer of the Cauvery Division and enclose with his tender the challan receipted accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimating a sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. The refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department officers save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4 When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs 700 (rupees two hundred and ninety only) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. The security deposit together with the earnest money and the amount withheld according to clause 16 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office so to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed complete until the agreement has been signed by the contractor and then by the proper officer authorized to enter into contract on behalf of Government.

5 The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Cauvery Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and Workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used in the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kinds, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;

(2) carriage;

(3) construction plant;

(4) water and lighting;

(5) cleaning up during progress and for delivery;

(6) accidents;

(7) delays; and

(8) particulars of payment; and

the contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Cauvery Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in words of these pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule 'A'. The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderer is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount), NOT LESS THAN
Three months	100

N.B.—The periods to be entered in column (1) for the purpose of defining the rate of progress to be kept by the Executive Engineer to suit each case.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms, whether they employ such technical staff and if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

The Collector of South Kanara will notify separately the special conditions by which such sales will be regulated. In the Chirkasle Circle of the Virajapatnam district ippa arrack of 60° underproof as obtained from the depots established in the circle for the supply shall also be kept for sale in the existing shops in which molasses arrack is sold side by side with the latter and also in the special shops opened for the exclusive sale of such ippa arrack. The Collector of Virajapatnam will notify separately the special conditions by which such sales will be regulated.

The districts in which non-resident arrack shops, foreign liquor taverns, beer shops and ganja and opium shops, respectively, will be sold are specified below:—

From 1st April 1938.

Conditions of Auction Sale.

I. Any person desiring to bid must deposit Rs 20 with the selling officer on the day of sale, but discretion is given to the selling officer to reduce the deposit to Rs. 10 or Rs. 5 when necessary. In Madras City the deposit to be made by each bidder will be Rs. 50. No one will be admitted to the auction room unless he has made this deposit. No one may bid for another person unless he holds a power-of-attorney from him. No shop will be knocked down in the name of two or more persons. In the case of a duly recognized company or firm an agent duly authorised by a power-of attorney, or any office-bearer empowered by the articles of association or similar rules, may bid for and act on behalf of the company as firm. Deposits made under this clause will be returned on application to unsuccessful bidders at the close of the day's sale.

Note.—In Madras City the deposit must be paid into the bank treasury and the challan for such payment produced before the selling officer. Deposits will be returned under the orders of the selling officer to unsuccessful bidders at the close of the day's sale on presentation of the challan at the bank office.

II. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground (1) that he has been convicted by a criminal court or has previously been guilty of such a breach of the conditions of licence or of a contract under the Abkari or Opium Act as to render him undesirable as a holder of a licence; or (2) that he is insolvent or in arrears to Government; or (3) that his bid is purely speculative; or (4) that he is a village officer or a relative of a village officer of the village in which the shop is situated or which is supplied by the shop or of a neighbouring village; or (5) that he is a contract supplier of country spirits for the contract area within which the shop is situated; or (6) that he is a brewer or agent of a brewer (either local or foreign) bidding for any shop in which beer is sold for consumption on the premises; or (7) that such a course is necessary to prevent arrangements to the detriment of Government interests; or (8) for any other valid reason.

III. The reserve price placed on each shop will not be published but the average monthly rental during the previous five years will be notified by Collectors, wherever possible, for the information of bidders. The selling officer will fix the upset price of each shop.

IV. The shops will be put up to auction in the order in which they are notified unless the selling officer sees reason to change that order.

V. The highest bid will be provisionally accepted by the selling officer subject to confirmation by the Collector. Such subsequent confirmation after the close of the sale will be necessary even if the selling officer is the Collector himself. The Collector will be at liberty to accept or reject any bid at his discretion. If the selling officer before the close of the sale rejects under condition II the highest bid for any shop he may at his discretion either accept the next highest bid or resell the shop. In case of dispute the selling officer's decision will be final.

VI. (a) Every person whose bid is provisionally accepted shall,—

(i) at once, if so required by the selling officer, or otherwise at the close of the day's sale, deposit, in addition to the deposits made under clause I, half a month's rent for each shop knocked down to him, unless the initial deposit equals or exceeds two months' rent;

(ii) at once apply in writing for a licence for each shop knocked down to him and within a week thereafter furnish the Tahsildar with the boundaries of the area selected by him for the location of the shop and a statement in the prescribed form (annexed to this notification) showing details of the immovable property proposed

by him, or in which he has an interest together with accurate and full details of encumbrances, etc., thereon;

(iv) within fifteen days from the date of sale, deposit with further sum as with the deposits already made under sub-clause (i) equal to two months' rent of all shops knocked down to him.

(b) further if the Tahsildar is not satisfied that any such purchaser can be trusted to pay the rent punctually and duly, he shall at once have the option of making the deposit required under clauses (a) (iv) supra, to select one of the following three courses and to do it within the time specified by the Tahsildar, i.e., either

(i) to deposit two months' rent of all shops knocked down to him; or

(ii) to execute a mortgage of his immovable property in favour of the Government for all moneys that may become due under the terms of the contract with a power of sale in favour of the mortgagee to be exercised in default of payment thereof by the purchaser; or

(iii) to produce a surety or sureties, to be accepted by the Tahsildar, who should execute a security bond for the due payment of all moneys that may become due by the purchaser under the terms of the contract and to execute a mortgage deed of his or their immovable property in favour of the Government for the payment of all moneys due under the said contract by the purchaser with a power of sale in favour of the mortgagee in default of payment thereof by the surety or sureties or by the purchaser.

If the Tahsildar is not satisfied that the value of the immovable property tendered as security by the purchaser under sub-clause (iii) supra is adequate, he shall require him to produce, in addition to mortgaging his property, a surety or sureties to be approved by the Tahsildar, who shall execute a security bond for the balance of the money that may become due, and a mortgage deed of his or their property in favour of the Government.

The sureties referred to in this clause (b) shall submit to the Tahsildar a statement in the prescribed form annexed to the notification showing details of their immovable property.

The purchaser shall be bound to carry out the provisions of this clause (b) within ten days from the date of communication to him of the Tahsildar's orders requiring him to do so.

The bond and the mortgage deeds shall be stamped and registered at the expense of the purchaser. He shall be bound to execute a counterpart agreement. The purchaser or his surety must produce at his cost an encumbrance certificate in cases in which immovable property is mortgaged to the Government.

VII Deposits will be returned to any case in which the Collector refuses to confirm the acceptance of the bid.

VIII At the close of the day's sale the selling officer will notify the date on which results, if any are found necessary, will be held; when the list of shops to be resold has been drawn up, a copy of it will be sent to any bidder who gives his name and address to the Tahsildar.

IX. The order of the Collector confirming or refusing to confirm the acceptance of a bid shall be final unless it is revised by the Board of Revenue, for special reasons. In the event of any original bid not being confirmed by the Collector for the reason that it is inadequate, the resale should begin with the bid provisionally accepted by the selling officer of the original sale and in the name of the individual who offered that bid.

X On the failure of any person to make a deposit or apply for a licence under condition VI or to comply with any requisition or to execute any engagement under condition VI, the shop may be resold under the orders of the Divisional Officer or on a report from the Divisional Officer may be otherwise disposed of by the Collector. Resales under this condition will be at the risk of the defaulting bidder, who will forfeit all gain and, in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the deposits already made by the defaulting bidder will be forfeited and deducted from the loss arising from the resale, and the balance of the loss, if any, will be recoverable in the same manner as if it were an arrear of land revenue. Should however the deposits be greater than the loss by resale, only such part of the deposits as is necessary to cover loss by resale will be forfeited and the balance refunded to the defaulter. The defaulting bidder will be similarly liable if the shop is disposed of otherwise than by resale and such disposal results in loss to Government as compared with the original sale. Disposal otherwise than by resale includes closure.

XI The purchaser of any abkari or opium privilege is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal licence may not have been issued to him. In the event of the purchaser's death after issue of the licence, his heirs and assigns shall be responsible for all moneys that may become due to the Government under the terms of the licence as well as for the proper observance of all the conditions of the licence.

XII. The deposits under condition VI (a) (iv) and (b) (i) may be made either in cash or in recognized Government, Port Trust, Municipal or Local Board securities, or by depositing Postal savings bank pass-books or deposit certificates obtained from the Provincial Co-operative Bank (Madras Central Urban Bank) or from any of the Central Banks approved by the Registrar of Co-operative Societies. When deposits are made otherwise than in cash, the Collector may demand that they must be of such higher face value than the cash deposit shall be of such in the circumstances of the market he may think necessary. Where the deposits under this condition are sufficient, under the Collector's orders, to cover also deposits made in cash under conditions I and VI (a) (i) which have not been refunded as well as deposits due under conditions VI (a) (ii) and (b) (i) the deposits made in cash may be returned to the depositors. Renters who have made the deposits under condition VI (a) (iii) and (b) (i) in the form of deposit certificates obtained from any of the Central Banks mentioned above or in cash may, make a formal requisition to the Treasury Officer or Sub-Treasury Officer as the case may be to transfer the cash deposits made by them under conditions I and VI (a) (i) or under conditions, VI (a) (ii) and VI (a) (iv) and (b) (i) to the fixed deposits in the Central Bank in the name of the Tahsildar. The Treasury Officer or Sub-Treasury Officer as the case may be will endorse this requisition on to the Bank and inform it that when the Bank gives the necessary formal receipt, he will hand over the amount to the representative of the Bank duly authorized to receive it, or will remit it by postal money order or insurance cover to the Bank. When the amount has to be sent by postal money order or insurance cover the renter will be required to deposit in the Treasury or Sub-Treasury, with his requisition to transfer the deposit, an amount which shall, in the opinion of the Treasury Officer or Sub-Treasury Officer, as the case may be, be sufficient to cover the cost of forwarding the amount of the deposit to the Bank; any balance not utilized for this purpose will be credited towards any rent due from the depositor. The securities or savings bank pass books deposited must be endorsed in the name of the Collector and Government promissory notes must be endorsed for payment of interest at the treasuries at which they are deposited, if so required. In the case of Co-operative Bank deposit certificates the deposits must be made in the name of the Tahsildar of the taluk, the contractor must agree in writing that he undertakes the risks, if any, involved in the investment and the banks must certify on the deposit certificate granted that the deposit is withdrawable on the Tahsildar's demand.

XIII. Deposits in cash will be adjusted towards the instalments of rent due in the last months of the period of the lease. Deposits of securities or savings bank pass-books or Co-operative Bank deposit certificates will be returned on payment in cash of the full amount of the rent due and of any penalties or other sums recoverable under the terms of the licence or of the conditions set forth below unless the depositors wish that the Government should take them over, in which case they will be taken over at the price of the day, and the balance, if any, due to the Government must be paid in cash. In cases of default under condition X of the conditions of auction sale or under condition 37 of the general conditions applicable to all abkari and opium licences, all securities deposited are liable to be sold for any amount due to Government under the terms of the lease, the remainder, if any, due after such sale, being recovered as arrears.

The licensee shall be bound by the rules prescribed under the Opium Act in Government Notification No. 483, dated 18th November 1932, published on pages 1358—1358 of the **Fort St George Gazette**, dated 15th November 1932, Part I, as subsequently amended and any additional general or special rules which may from time to time be notified.

2. The privilege conferred extends only (a) to the retail sale of raw opium and (b) to the manufacture and retail sale of opium mixture in shops duly sanctioned.

3. The price of raw opium at taluk kutcherries will be Rs. 85 per full seer cake and Rs. 42–8–0 per half seer cake.

4. (a) The licensee shall obtain his supply of raw opium from such taluk cutcherry as may be ordered by the Collector in quantities of a half seer and full piles thereof on complying with the rules regulating such issues, or from other shops within the district under the special orders of the Collector. No raw opium other than that obtained in the manner specified above shall be sold or received or possessed by the licensee. During the closing month of the lease (March), the licensee shall not apply for more raw opium than is necessary to meet legitimate requirements of the remaining days of the lease. Every indent for raw opium in March will be carefully scrutinized by the officer in charge of the taluk treasury, who may, at his discretion, refuse to comply with it in full, and may issue such quantity as he considers reasonable.

(b) If the licensee of a shop, the supply to which has been restricted, takes over from the previous lessee any balance of stock amounting to 20 tolas or more, that balance shall be taken into account in regulating the supply to his shop for the month of April. He shall show such balance in his indent for raw opium for the month of April and shall be allowed to obtain for that month only such portion of the prescribed maximum supply as may be fixed by the officer in charge of the taluk treasury.

5. The licensee shall not sell at one time to any person more than one tola of raw opium or opium mixture containing more than one tola of raw opium except in the Agency tracts of Anaparthy and Rajahmundry where he may sell raw opium up to two tolas or opium mixture containing not more than two tolas of raw opium and in the enclave villages of Anyanga and Tanuvay where he may sell raw opium up to half a tola or opium mixture containing not more than half a tola of raw opium. The licensee is prohibited from breaking up the pressed raw opium cakes kept for sale in his shop except in quantities not exceeding the average daily sales in the shop.

6. The licensee shall keep at any one time no greater quantity of raw opium and opium mixture than may be fixed by the Collector. The Collector may, with the previous approval of the Board of Revenue, by notification at the time of auction sales, impose a maximum limit on the quantity to be sold under a license and the Board of Revenue may, at any time during the currency of the lease, if it finds that the sales in a shop are abnormally high, restrict further issues unless good reason is shown by the licensee.

7. If the licensee is used as a cloak for illicit sales or if the licensee knowingly sells opium to an opium smuggler or if the Collector has reason to suspect that the licensee is guilty of any of these offences, he may, after recording his reasons, forthwith cancel the license and resell or otherwise dispose of the privilege at the risk of the licensee. The rent for the whole lease shall become due at once, when a license is cancelled under this condition.

8. The smoking or consumption of opium in any form in premises licensed for sale is prohibited.
